

Exploring World History

By: Notgrass

Welcome to Exploring World History. In this class, we will be studying history from creation through today.

During this class, students are expected to come prepared to learn and participate. This includes having their books, notebooks, pencils, and projects. We will cover one unit per week along with any extra reading in "In Their Words".

Books needed for this class:

-Exploring World History by Notgrass, copyright 2014, part 1 and 2

-In Their Words: Original Documents, Poetry, Stories, and Hymns from World History

-Student Review Pack

There are weekly quizzes and tests. I **WILL NOT** be administering these to the class. This is the parents responsibility. I **do expect** all projects and papers written in class to be done at a high school level. Papers and projects will be presented to the class each week.
